1. Our track fittings are specifically designed to ensure free pivoting action for optimum belt alignment to the securement point on the wheelchair.
2. D-ring configuration provides an easy attachment point for the snap hook on an integrated occupant restraint system.
3. The ergonomically designed handle is quick and easy to grasp when applying tension to the retractor webbing. The chrome-plated metal cover provides a strong, durable finish.
4. The FF600 Series positive-locking retractor offers a choice for operators to tension the retractor to the desired load, locking the webbing at any length, including when fully retracted into the housing.
5. Retractor systems featuring Integrated Combination Belts are the most convenient securement system choice for operators.
